NIH	R01DA057351	5R01DA057351-03	UNIVERSITY OF CHICAGO	3/20/2025	\$924,073	Pending	NARRATIVE: We propose to conduct research that will determine the impact of relevant behaviors on HIVprevention among Young Black Sexual Minority Men (YBSMM) such as heavy cannabis use. We propose toexplore mechanisms specifically neurocognitive impacts of heavy cannabis use linking heavy cannabis use toHIV prevention outcomes (and particularly PrEP use) and whether motivations for cannabis use amidst achanging cannabis regulatory social acceptance and legal landscape modify its effects on HIV prevention. Identifying neurocognitive mechanisms through which cannabis use affects HIV prevention and the importanceof motivations for cannabis use in understanding clinical outcomes will provide targets for future HIV preventionefforts.	N/A - Departmental Authority
